ISSUE NO 1 | JANUARY - 2022 | VOLUME I

NEWS FLASH

Here are some great websites to find activities for preschoolers.

They are all for hands-on learning - NO WORKSHEETS - to make preschoolers into first graders.

I suggest you check each one out slowly to get the most out of it and browse the whole website eventually. Find things you like and bookmark them. There is so much here to improve you, your classroom, and your teaching practices..

But above all, try them. You won't know if they work or don't work if you don't try. And by the way, if it doesn't work the first time, try it another way

Looking at things, going to training, reading about or having suggestions to things that you never try will not elevate you to Better Teacher status. It is a basic human trait to try to be the best person that you can be.

<http://www.prekinders.com>

<http://www.getreadytoread.org/early-learning-childhood-basics> This website has great activities in all the domains.

PAGE 01

These activities are excellent to send home to parents also.

PAGE 02

Excellent classroom activities for teachers of two and three year olds.

PAGE 03

Tips and ideas for Pre-K and all early childhood grade levels

<https://teaching2and3yearolds.com/>

There was not much difference between the preschool and toddler activities (a real negative in my book because toddlers are a world apart from a 3 year old in motor skills and cognitive development. Excellent activities for the classroom and includes videos on how to do the activities.

[For Teachers | Illinois Early Learning Project](#)

Great site for parents also. The activities are based on the Illinois Early Learning Guidelines and Illinois Early Learning Development Standards.

Sharon Sharing Connections

Early Childhood Teacher Training Programs & Information

Lots of appropriate activities for toddlers and preschoolers. Watch the videos. Tip sheets in PDFs to download. Excellent to give parents or use as teachers.

[Teaching 2 and 3 Year Olds - Playful Learning Ideas for Toddlers and Preschoolers](#)

Superb activities with videos, playlist, and numerous links for songs, things to do, themes, etc. If you need ideas, this is the place to go.

[Early Learning • ZERO TO THREE](#)

This website has activities in all the domains for children under 36 months. It is all research based and all easy to follow activities to implement in your classroom.

<https://www.cdc.gov/ncbddd/childdevelopment/freematerials.html>

Not another boring government website. This one is packed with information and activities. don't be fooled by seeing "Parents" in the information, it is all readily adaptable to your classroom. But give it to the parents or put it in your newsletter.

<https://www.weareteachers.com/category/teaching-strategies/?filter-grade=1278&filter-subject=all-subjects>

This is a good website to find lots of tips and ideas. Make sure you scroll down to PRE-K because it covers all grade levels.

<https://www.thestemkids.co/a/blog/science-activities-for-preschoolers>

This website is okay. They really want you to buy. You have to scroll a lot just to find a few activities that might or might not work with small groups.
