

# HAND IN HAND CONSULTANTS

We are a private organization licensed in the state of Illinois as a business in the education field. We are a consortium of educators that have a minimum of a master's degree in early care, early childhood education, child development, and/or child and family support.

Our mission is to train and coach staff that work with children so that all might reach their highest potential.

## Coaching

Helping teachers improve or tweak some areas of their practice might be all that is needed to turn a good teacher into a great teacher.

We offer one-on-one assistance to help teachers recognize, acknowledge, and implement better practices.

We also support teacher forums that help teachers work as a more cohesive group, develop a team attitude toward their work, and gain a better understanding of classroom responsibilities toward co-workers.

**Vision**  
**Hand In Hand**  
Hand In Hand Consultants believes that by providing quality training and coaching to teaching staff they will provide children they work with the best care, learning and nurturing.

Hand In Hand Consultants

## Training

All of our trainings are Gateways to Opportunity approved so that staff receive the contact hours mandated. We can also customize trainings based on the needs of your staff.

Many of our training topics are done in a series and offer points toward various Illinois credentials

**Mission**
